Replying to the president of the Hughes alliance in Wisconsin, Mr. Onstad telegraphed that he could not support Mr. Hughes, adding, "sentiment among the Norwegian farmers is overwhelmingly in favor of Wilson."

One of the best campaign documents issued this year is a telegram from Thomas A. Edison read at a recent non-partisan Wilson dinner at the Hotel Portland, Portland, Ore. The telegram was: "Henry Ford, John Burroughs, Luther Burbank and myself, all republicans of many years, have concluded among ourselves that the interests of the United States of America will be best served by electing Woodrow Wilson president."

Richard Cullen, 22, a machinist, who was taken into custody after attempting to jump on the running board of an automobile in which President Wilson was riding at Pittsburg, was examined by physicians and ordered sent to the city home at Mayview for further observation regarding his sanity. Cullen denied that he intended harming the president, saying he was not satisfied with the administration's foreign policies and just wanted to talk to him. A bottle of liquid in a bag carried by Cullen was found to contain medicine, according to the police. A knife with a blade 5 inches long and several wood chips were also in the bag.

PEOPLE EAGER FOR VISIT

Party For Business Reasons Has Been Reduced In Size.

## GERMANY ISSUES WARNING NOTE

Tells Norway Embargo on Submarines Will Not Be Submitted to Calmly.

NORWEGIAN CABINET MET

Press Upholds Ordinance Restricting Plungers as Sweden Already Has Done.

London, Oct. 22.—The British attack on the Somme front resulted in obtaining all its objectives, the war office announces. More than 800 Germans were captured.

Twice during Sunday—in the morning and in the afternoon—the Germans launched violent attacks against the positions newly won by the French in the Chaulnes wood, south of the Somme in France. Both attacks were repulsed, the Germans suffering heavy casualties, according to Paris. Some of the attackers in the morning offensive gained a foothold in the French first line, but were surrounded and the 150 survivors made prisoners.

Berlin in admitting that in Saturday's fighting the British north of the Somme made gains, characterizes the British attacks as "a reckless sacrifice of human lives."

Several trenches between Blaches and La Maisonnette, south of the Somme, were recaptured Saturday from the French, says Berlin.

Notwithstanding bad weather on the Macedonia front, slight additional progress has been made by the entente allies in the Cerna river region. German troops now are aiding their Bulgarian allies in the fighting at the bend of the Cerna.

Heavy rainstorms and snow falls are impeding the operations in Austro-Italian theater.

A German aeroplane which dropped four bombs at Sheerness, England, Sunday, is believed to have been the same aircraft that was destroyed later and fell into the sea under the attack of a British naval aeroplane.

The presentation by the entente allies of further demands on Greece, including the removal of Greek troops to the southern part of the country and the handing over of the Greek war supplies, is reported by Reuter's Athens correspondent.

The German minister has presented to the Norwegian government a note protesting against Norway's embargo on submarines of the belligerent countries. The cabinet held a meeting and discussed the note but its decision in the matter has not been made public. The press unanimously supports the government in its right to issue such an ordinance, as Sweden has already done.

## SUFFERINGS ARE ENDED

George Nance, Well Known South Christian Farmer Passes Away.

George Nance died Saturday at his home in the extreme southwestern part of this county and not far from Roaring Spring. The deceased was about 60 years old and leaves a host of friends. His wife and four children, two sons and two daughters, survive. Services were held at his late residence Sunday morning and the remains were brought here, where the interment took place in Riverside cemetery.

## Handsome Residence.
